

#835A COMBIBATCH

Food Processing Systems and Equipment

Reduce your GiveAway to less than 10% of your current average....

GiveAway reduction drops direct to your Bottom Line.

Uses high speed Combinational Computation to:

- Minimize GiveAway
- Minimize Labor
- Maximize Profit
- Maximize throughput to shipping

Incorporates High Accuracy Weigh cells and High Reliability Industrial computer to fill bags to target weights.

Specialized Combinational Mathematics allows selection of items to match target weight.

With 6 average items in a batch, can produce batches with no underweight and average overweight less than 1/10 item weight.

#835A COMBIBATCH

FEATURES:

- 7 weigh hoppers
- 14 selection hoppers
- 30 to 200gm pieces
- Up to 12 batches per minute
- Highly accurate batch weights

RYCO ADVANTAGES:

- Designed to operate in remote plants
